- **Discuss how to properly dispose of controlled substance waste.**

Course Objectives

- **Discuss the disposal of controlled substances by the patient “ultimate user.”**
- **Discuss the disposal of patients’ controlled substances at long term care facilities.**

Questions To Discuss

At the completion of this block of instruction you will be able to answer the following questions:

1. Which method of destruction for controlled substance practitioner inventory is **not allowed**?
2. Can a practitioner take back a controlled substance that was already prescribed or dispensed to a patient?

Questions To Discuss

3. **What is DEA's current recommended method of disposal for practitioner inventory?**
4. **When is a DEA Form 41 required for the disposal of controlled substances.**
5. **What disposal methods are available for ultimate user's ?**

Where Do They Come From?

Source: Department of Health and Human Services

Secure and Responsible Drug Disposal Act of 2010

- **Authorized the DEA to promulgate regulations that allow ultimate users to transfer pharmaceutical controlled substances to authorized entities for disposal.**

Ultimate User

- A person who has lawfully obtained, and who possesses, a controlled substance for their own use, or for the use of a member of their household, or for an animal owned by them or a member of their household.

21 USC § 802(27)

What is a “Collector”

- A registered manufacturer, distributor, reverse distributor, narcotic treatment program, hospital/clinic with an on site pharmacy, or retail pharmacy that is authorized to receive a controlled substance for the purpose of destruction.
- The registrant has a **modified registration** authorizing the collection of controlled substances from the “ultimate user.”

[21 C.F.R. § 1300.01\(b\)](#)

Secure and Responsible Drug Disposal Act of 2010

- This **did not** change existing methods of disposal of controlled substances, for **ultimate users** but expanded the options.
- Ultimate users now have **more locations** where they can securely, safely, responsibly, and conveniently dispose of their unwanted pharmaceutical controlled substances.

Secure and Responsible Drug Disposal Act of 2010

- The regulations continue to allow Federal, State, tribal, and local **law enforcement** to maintain collection receptacles at the law enforcement's physical location;
- And either **independently or in partnership** with private entities or community groups, to voluntarily hold **take-back events and administer mail-back programs**.

Secure and Responsible Drug Disposal Act of 2010

- Created an exception for Long Term Clinic Facilities (**LTCFs**) to transfer pharmaceutical controlled substances for disposal on behalf of patients who reside or have resided at that facility.

Disposal of Controlled Substances Final Rule of 2014

Disposal of Controlled Substances Final Rule of 2014

Benefits to the public are:

- **Decrease the supply** of pharmaceutical controlled substances available for misuse, abuse, diversion, and accidental ingestion; and
- **Protect the environment** from potentially harmful contaminants by providing alternate means of disposal for ultimate users.

Non-Retrievable

- A controlled substance is considered "non-retrievable" when it cannot be transformed to a physical or chemical condition or state as a **controlled substance or controlled substance analogue...**

21 CFR § 1300.05

Non-Retrievable

The purpose of this destruction standard is to:

- Permanently render the controlled substance(s) to a non-retrievable state and thus **prevent diversion** of any such substance to illicit purposes.

**These methods
do not meet the
standard**

[21 CFR § 1300.05](#)

Disposal of Practitioner Controlled Substance Inventory and Controlled Substance Waste

Disposal of Controlled Substance Inventory

Practitioner options to dispose of **inventory** are:

- Prompt on-site destruction if proper method.
- Prompt delivery to a DEA registered reverse distributor by common carrier or reverse distributor pick-up.

[21 C.F.R. § 1317.05\(a\) and \(b\)](#)

Disposal of Controlled Substance Inventory

Returned or Recalled Controlled Substances

- Prompt **delivery** by common or contract carrier or pick-up at the registered location by:
 - Registrant from whom it was *obtained*.
 - Registered *manufacturer* of the substance.
 - Another registrant authorized by the manufacturer to accept returns or recalls *on the manufacturers behalf*.

21 C.F.R. § 1317.05(a) and (b)

Disposal of Controlled Substance Inventory

- A practitioner may also request assistance from the Special Agent in Charge in their area.

[21 C.F.R. § 1317.05\(a\) \(4\)](#)

Products That Advertise They are Non-Retrievable

- DEA is aware that there are companies that claim that their products can render controlled substance inventories non-retrievable, and have DEA approval.
- **DEA has not approved any such products** for the disposal of practitioner inventory.

21 CFR § 1300.05

NOT APPROVED

Disposal of Controlled Substance Inventory

- Practitioner's Controlled substance inventory **cannot** go to a collector.
- Collectors can **only** receive controlled substances from the **“ultimate users.”**

21 C.F.R. § 1317.05(a) and (b)

21 C.F.R. § 1317.75(c)

Disposal of Controlled Substance Waste

DEA allows disposal of controlled substance **waste** if:

- It is **authorized** under your states laws... and
- It is the **remaining portion** of used needles, syringes, or other injectable products in a practitioner environment (hospital, clinic, physicians office, etc.)

[21 C.F.R. § 1304.21\(e\)](#)

Disposal of Controlled Substance Waste

Recordkeeping for disposal of controlled substance waste:

- No DEA Form 41 required.
- Recommended that two employees witness the handling and the destruction of the controlled substance waste.
